WA State EOC Radio Net Control Script for OPS-3
Each Tuesday at 09:00 hrs local time
SULTAN, WA

Date: _____   Net Control Callsign: _____

Good Morning Sultan Washington. This is the OPS-3 net for <__date__>
serving the municipality of Sultan for the WA State EOC Radio Net.
My name is <__name__><__callsign__> serving as net control.
The purpose of this net is a "temporary setup" during the COVID-19
Pandemic, keeping everyone to a quarantine status in order to stop
the virus from spreading.

The number of check-ins from this net will be passed on to the OPS-
2 net at 09:30 today. These net check-ins are compiled from the WA
State Emergency Workers who respond on a weekly basis at the
local EOC's stations.

This net is being held on 145.650mhz simplex and we advise using a
103.5hz subaudible tone. When called, please respond with your
callsign and indicate if you are using a handheld, with a battery,
and a handheld antenna.
Stand by for roll call.

Check the already assigned dates off the ACS page on the
W7SKY club site and fill in below for the upcoming dates
that aren't covered. Write the dates in and names who
will cover that day and email webmaster@w7sky.org

DATE >				
NAMES >				

Are there any late check-
ins or any visiting ACS members?
Is there any traffic for the net?
Thank you for participating in the net.
This net is now closed at <__time__>. This is <__callsign__> 73.

Hold on to this form making sure it is placed in the notebook along with the
other Net Check-in lists at the Sultan EOC when it's clear to do so.
