

00:53:54 Kris McDonald - N7KDM: Can someone put the 220 freqs in the chat please?

00:54:13 Garth KA7BVS: 224.180/222.580 100.0Hz tone

00:54:22 Kris McDonald - N7KDM: thanks

00:56:02 Steve Ramseyer N7SRR: Can Sharon provide more details on what equipment she put in her portable go box?

00:56:28 Kris McDonald - N7KDM: pictures as well would be really nice

01:01:54 Karen KI7NHP: We can hear you Kathy and Bruce.

01:01:55 webmaster@w7sky.org: did we freeze?

01:02:06 Garth KA7BVS: We can hear you but apparently you can't hear us

01:02:09 Dave KI7DPP: Yes

01:02:52 Garth KA7BVS: Let's go ahead and do the webmaster report in that case :)

01:03:03 Dave KI7DPP: Yes

01:03:07 Garth KA7BVS: Yes please :)

01:04:00 Garth KA7BVS: Thank you!

01:04:46 webmaster@w7sky.org: are you guys able to see all in this meeeting? We only see the person speakiing

01:05:00 webmaster@w7sky.org: we don't hear anyone now

01:05:14 Garth KA7BVS: Yeah we're still here

01:05:16 Erik Robins: I see and hear everyone

01:05:42 webmaster@w7sky.org: wow... our session is a total mess. we only see the person speaking

01:06:32 Garth KA7BVS: Sharon is showing us her go box

01:06:45 webmaster@w7sky.org: for us... we might as well end our session cause we cant see or hear any of you. Garth is frozen on screen that's it

01:07:08 Garth KA7BVS: Ok, it is still recording for me so hopefully you'll be able to grab that one from the cloud

01:07:27 webmaster@w7sky.org: yes and garth you are host. so the recording should keep going.

01:07:51 webmaster@w7sky.org: ok, will give it one more try with rebooting

01:08:28 Russ Urness & Holly Urness KJ7KIU KJ7KIV: Can we put out a shopping list and then have a workshop to build one?

01:08:54 Garth KA7BVS: <https://powerwerx.com/west-mountain-radio-epic-pwrgate>

01:12:36 Kris McDonald - N7KDM: The PWRgate is a really good device. Good for a Go Box that has capabilities so that your battery charges when you're on AC power if you have a power supply in your box. Been thinking of doing one in a Gator rack box for quite some time.

01:15:52 Kris McDonald - N7KDM: <https://www.gatorcases.com/products/racks-portable/pro-series-molded-racks/g-pro/6u-13-deep-molded-audio-rack-g-pro-6u-13/#>

01:16:33 Kris McDonald - N7KDM: This case has enough space to have a small PS and multiple radios (2/70, HF, 220), as well as meters and speakers.

01:34:31 Dave KI7DPP: Scott Honaker has a Powerpoint presentation he will give to clubs on GoBox options. We should get him on the schedule to present after a future meeting.

01:35:24 Erik Robins: We could ask Scott to present it at a meeting

01:36:03 Erik Robins: I should have read Dave's whole message

01:54:21 webmaster@w7sky.org: that would be a great idea

01:56:11 Kris McDonald - N7KDM: a 20Ah LiFePO4 battery is around \$200 from PowerWerx

01:56:39 Kris McDonald - N7KDM: they have various versions of them as well

01:56:53 Kris McDonald - N7KDM: <https://powerwerx.com/bioenno-blf-1220a-12v-20ah-lithium-iron-pvc>

01:57:11 Dave KI7DPP: <https://www.bioenpower.com/collections/12v-series-lifepo4-batteries>
